

Surfing Australia is proud to announce a new partnership with Open Universities Australia (OUA), Australia's leading supplier of distance and online university studies. This is part of our service to ensure our members are presented with every possible opportunity to further their education and build successful careers particularly in surfing related business areas.

Why are we in partnership with Open Universities Australia? OUA studies are open access with no prerequisites. Students access higher education units on a unit by unit basis for individual professional development or interest, or build their studies into a range of degrees from one of nine leading Australian universities. OUA's four study periods a year (Mar, Jun, Aug & Nov) makes starting and managing your study program easier. You can study full-time or part-time and earn your qualification while enjoying the flexibility that distance mode education offers.

OUA is also offering special benefits to Surfing Australia members. As well as access to dedicated advisors who understand Surfing Australia members' needs, Surfing Australia has negotiated special value added bonus features for your benefit, including text book vouchers and additional access to 24 hour student advice, Smarthinking.

These offers are only available to Surfing Australia members when you identify yourself by using the unique Surfing Australia member code – SU1091109001 via the OUA Corporate hotline number 1300 513 044.

You can also access the special offer by entering the unique Surfing Australia member code when requested as part of the creating a login process on the OUA website.

***Visit the Open Universities Australia website [www.open.edu.au](http://www.open.edu.au) for information program offerings. If you want more advice regarding studies through OUA, advice about qualifications, recognition of prior learning, suitable pathways, payment options, and enrolments, the best way is to speak to the corporate education advisor at the OUA Corporate hotline number 1300 513 044. Remember you can only access the additional benefits by using the member code to identify yourself.***
